

McGill's Summer *Short Programs*

Taught by
remote
instruction

McGill University
Montreal

Remote *Edition*

Looking for an academic challenge while living overseas? Expand your knowledge base with stimulating Short Programs that immerse you into a well-rounded learning environment while offering a rich social and cultural experience.

The 2022 Summer Session will provide students from around the world with practical short programs on topics such as Business Analytics, Big Data, Communications, Machine Learning, and more. Each program contains two non-credit courses (with transcript) and totals 60 contact hours. Students obtain a Record of Study and an Attestation of Completion from *McGill University* upon completion of their program.

Admission Requirements

Students are expected (but not required) to have a minimum of TOEFL iBT 79, IELTS 6.0, Duolingo 105 (or equivalent) to be functional in a classroom setting. Proof of English proficiency will be requested at the time of application. Programs are geared towards undergraduate students, although graduate students and working professionals are welcome. See [full brochure or website](#) for more details.
