## TESTIMONIAL

I think this is an excellent internship. Due to the impact of the global epidemic, the internship I participated in was a virtual internship. But this did not affect the quality of my internship. Fabricio taught me patiently and was kind and prompt to solve my problems and provide me with help.

I think it is a lucky thing for me to get this internship opportunity. I also had a lot of interesting talk with Fabricio during the internship. This internship is an unforgettable memory for me.

**Sherry Qiu**  
(Global and Environmental Studies)

As I have long been fascinated in art and design field, this internship is beneficial for me to foster my design skills and deepen my understandings to the job market for the field.

I am grateful with the help and support from the organiser Bloom of Youth. Bloom of Youth is nice because the staff is willing to offer helping hands for the participants. Overall, the organisation is helpful and the programme is well-organised.

**Ina Lo**  
(Visual Studies)

This three-month internship has been a very enjoyable and meaningful experience for me. Lionel is a great supervisor and a positive role model. Additionally, I developed several important skills, such as teamwork and communication skills. I worked closely with my teammates who are skillful and dedicated, and we have weekly meetings and brainstorming sessions. I have also gained commercial awareness and expanded my horizon. This internship opens up my future career perspectives in PR&Comms as well as education.

**Katherine Gu**  
(Law)

Overall speaking, I really enjoyed my global virtual internship experience. First of all, I have a kind supervisor as well as colleagues who provide me with a nice and supportive working environment. Secondly, I also got exposure to a microplastics reduction program outside HK which undeniably is a precious experience for me. I also got to sharpen my English skills as well as enhancing my knowledge in environmental education programs.
